

STELLAR KNIGHTS

Dark and unforgettable.

About the Band

Stellar Knights is a London-based rock duo formed during the pandemic by vocalist Stella and guitarist Duncan. Since then, they've released three singles — *Pisces*, *Away From Here*, and *Stop the Rain* — and are currently working on their debut EP. With their first full-band live show set for February 2025, **Stellar Knights** are ready to take their sound from the studio to the stage.

Sound & Influence

Even though Stellar Knights have been compared to bands like **Evanescence**, **Lacuna Coil**, and **The Gathering**, their sound is very much their own. They take inspiration from gothic rock, metal, and progressive music, blending heavy riffs with dark melodies and cinematic atmospheres. Intense and emotional, their music is built on both personal stories and the wider influence of literature, film, and pop culture.
