

STELLAR KNIGHTS

ABOUT THE BAND

Stellar Knights is a London-based rock band formed by vocalist **Stella D'Angelo** and guitarist **Duncan Greenway**.

After releasing **Pisces**, **Away From Here** and **Stop the Rain**, Stellar Knights have continued writing music and developing their sound both in the studio and on stage.

Their music brings together heavy guitars, dark melodies and atmospheric elements, with influences ranging from gothic and alternative rock to metal and progressive music.

SOUND & INFLUENCES

Stellar Knights have been compared to bands like Evanescence, Lacuna Coil and The Gathering, but their sound is very much their own.

They take inspiration from gothic rock, metal, progressive music and beyond, blending heavy riffs with dark melodies and cinematic atmospheres.

Intense and emotional, their music is built on both personal stories and the wider influence of literature, film and pop culture.

RELEASES

Pisces

Grunge-inspired debut single.

Away From Here

Nostalgic yet powerful rock anthem.

Stop the Rain

A dark, hypnotic gothic track.

LIVE SHOWS

Stellar Knights bring their music to life on stage with a powerful and immersive live show.

After performing several acoustic sets as a duo, Stella and Duncan decided to take the full sound of Stellar Knights to the stage, joined by a line-up of live musicians.

This allows the songs to be performed as they were meant to be heard: heavier, more dynamic and closer to the sound of the recordings.

Stellar Knights have already shared the stage with HEKZ and continue to perform across London.
